LONDON, Dec. 1.—The Balkan states continue to dominate the military and diplomatic situation in Europe. Rumania's attitude apparently is causing the Central Powers great uneasiness while Greece's refusal to limit her military effectiveness is a source of concern to those powers.

Rumania is said to be only awaiting the present of the Balkans of preponderant military forces before dispatching an ultimatum to Austria, and German military circles, according to dispatches reaching London, express considerable dissatisfaction with conditions in the Balkans, predicting that military and diplomatic difficulties ahead despite the brilliant Serbian campaign of Field Marshal von Mackensen.

It is reported that Austria is opposed to the idea and possibility of Bulgarian domination of the Balkan states and it is suggested that a desire to forestall any friction in this connection was responsible for the German emperor's recent visit to Vienna.

Greece is actively endeavoring to conciliate the demands for the uncontrolled use of the Greek port of Salonika as a base and furthermore declines to remove her army from Macedonia.

Except for the capture of Epirus by the Bulgarians there has been no marked change in the Serbian military situation. The fate of Monastir reported to have fallen before the Bulgars remains obscure notwithstanding definite reports that neutral consuls in the city had arranged to turn it over to the attackers after withdrawal of the Serbians. Later dispatches stated that the city was still maintained indicating that it had not been entirely evacuated.

The eastern front has been comparatively quiet. The Russian army reported as being greatly strengthened along the River line, but with a confidence that they can shatter the German defense and launch a forward move is deepened expectation.

Vienna reports that the Bulgarians seem determined to capture Gorizia with the least possible loss of time but progress against the defense of the town is exceedingly slow.

**FRENCH AIRMAN ROBS
TWO GERMAN MACHINES****PARIS, Dec. 1.**—The French official report on the capture of the German airman who was shot down in the air over the English coast, states that the French were successful. Otherwise there is no other news to report.

The statement continues: "In the Air Corps district one of our new planes yesterday attacked two German machines and shot them down. One of these was captured and brought to the ground. The other fell and was pursued as far as Douai."

During the day of November 28 a French aeroplanist threw down six shells of 20 millimetre caliber on some German planes flying over the English coast. These shells were seriously damaged.

Still Missing.****By Associated Press**
BOOMER, W. Va., Dec. 1.—The bodies of 14 miners who lost their lives in Mine No. 2 of the Boomer Coal & Coke Company by an explosion of a blowout shot which occurred at noon last night were brought to the surface this morning and taken to the temporary morgue nearby.

Soon afterwards a rescue party appeared with five other men who had been buried for under a week and who though still alive were in a critical condition. They were taken to the hospital in the hope that prompt treatment might save their lives.

Other parties who had been searching for the missing men during the night came out with the report that they had been unable to locate any of the five or six miners still missing and their places were at once taken by fresh volunteers all of whom are working under the direction of the state mine inspectors and engineers from the Bureau of Mines.

ONE MAN KILLED TWO**ESCAPE IN SLAYING, PAID**

BLOCK IS CLOSED

Repairing of North Pittsburg Street is Still Under Way.

North Pittsburg street was closed today when dug for the last water pipe and relaid. The end is on hand and the laying of bricks will commence this afternoon. CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Fovorish, Constipated, Give "California Syrup of Figs."

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy. They know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach; and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See this. It is made by "California Fig Syrup Company" (refuse any other kind with contempt)—Adv.

TIME CALLED ON THOMPSON.

Time has been called on Joseph Vankirk Thompson. The patience of his unsecured creditors is exhausted. They have thrown conservation to the winds. The real panic has begun.

It seems a pity, yet there appears to be no remedy for the situation. The result, indeed, has seemed to some observers to have been inevitable. The notion that New York bankers would set a \$20,000,000 trap against the tottering Thompson coal pyramid did not appeal to them. They knew Wall Street better. However, they kept their counsel and joined in the public hope that a rehabilitation of Fayette county finances might be miraculously brought about. That hope seems crushed by the demand of the unsecured creditors that Thompson be declared bankrupt. The "Intown Standard" and thinks this action most wise and predicts that these creditors will not receive 10 cents on the dollar. It says:

"It is a great pity that the creditors cannot harmonize on some movement that will gain time and enable Thompson to take advantage of the greatest steel demand in the history of the world. The Standard has heard reports that some of the interests which want Thompson's coal holdings are simply awaiting the time when his properties shall be forced away from him at a fraction of their real worth. Whether or not this is true we do not know; but that bankruptcy means the disposition of this vast coal acreage at lower prices than have been quoted for the past ten years, and that it further means the almost total destruction of coal values upon which rests the bulk of the banking and business credit of the counties of Fayette, Greene and Washington, goes without saying."

The far-reaching results of the Thompson failure cannot be denied. It is Titanic in character. Joseph Vankirk Thompson was a man who inspired confidence. He had been highly successful as a banker and a dealer in coal lands. Many people had lent largely by their alliances with him. Until the tide of fortune turned in 1913 investment sought him. "Wine, women and war," like the sure talents and make them into an hundred."

Thompson's bankruptcy means the bankruptcy of a large number of such persons associated with him in coal land investments, but the shock of the financial disturbance will be readily absorbed in the resilient business recovery now happily prevalent all over the country and especially in the Connelville coke region.

One of the notable features of the affair has been the power exerted by the Fayette County Bar Association, which for months held back the judgment proceedings of creditors in the hope that the Thompson holdings might be taken over by a creditors' committee and liquidated until sufficient money could be realized from them to pay all claims in full or practically so, and perhaps leave something for the owners of the property. That this plan failed was no fault of the lawyers, but rather of the circumstances.

HISTORY AND PATRIOTISM.

The surrogates of Reverend George P. Boush, Secretary of the Fayette County Historical Commission, concerning the formation of an historical society in Connelville are worthy of the consideration of our intelligent and patriotic citizenship. There is the need of such a society in the educational circles of the city. The forces of the High School, the Library, the City Hall and the civic and religious bodies should forward the movement. In short, it should have the earnest support of every lover of his country. It is as much a part of the policy of Preparedness as arms and navies. It instills into the people, and especially the youth of the land, a love of country. It breeds patriots. The movement in Connelville needs initiative. It is ripe for leadership. There are those whose ambition and public spirit are as great as ever, but whose bodily infirmities cut them out of the running. The laurel crown is there. Who will set it upon his brow?

There is no congestion in the Connelville coke movement. We seem able to manufacture only 425,000 tons of coke because of the indifferent labor supply, but its shipment by the railroads is made with clocklike regularity. The Connelville coke operators do not know what our troubles are any more, but in their time they had plenty of them.

Henry Ford will have to throw on the high if he expects to get the boys out of the trenches by Christmas.

The railroad blockade began with grain and has extended to steel, but we will hope that it will not prove serious in the latter case. A disturbance of the steel trade may be rectified back into the coke trade.

It takes a Baptist judge to expound the sacred-sacred law of the Baptist church with clearness and accuracy.

The hunting season is over. It is short after all. Lots of perfectly good hunters didn't get the worth of their license out of the woods. One can still hunt for bear, but there are none of them around here except the kind that are chasing Joe Thompson into bankruptcy.

The newspaper reporters were voted out of the meetings of the Fayette County Bar Association with the usual result. When a newspaper is de-

termined to print the story, it is usually better to let the reporters get it straight.

Within a week after the Connelville News lifted up its voice in protest against the granting of so many divorces in the Fayette county courts, one has been refused. Great is the power of the press!

The "Intown Standard" explains that the "slimy hand of the Invisible Government" is evident in the reports of the Boiler Plate Factories. The same paper carries at its editorial head the boast that it has "the exclusive use of the American Press in Connelville." The American Press is the chief Boiler Plate Factory. The Standard seems to be proud of its service. Perhaps the Invisible Government is Democratic.

Some portion of the Connelville people are beginning to enter this winter, but the education of the school children in this particular is being neglected.

MOUNT PLEASANT, Dec. 1.—The annual convention of District No. 8 of the Westmoreland County Sabbath School Association was held yesterday afternoon and evening in the Union Presbyterian Church. The afternoon session began at 1:30 o'clock with the registration of delegates and this was followed by devotional services. The first number on the program was suggestions on primary work by Mrs. G. H. Thomas of Monaca, followed by a report of the state convention by Rev. L. E. Yahn. Attorney John C. Shiley, the county president, gave an address on "The Meaning of the Reformer Sunday School." H. S. Forester of Pittsburg, the state field worker, gave an address on "Plans That Work in Country Schools." Mrs. Frank B. Brady then made recognition of the front line schools in this district and gave them their certificates and medals. At 7 o'clock a meeting of the district officers and superintendents was called but owing to the absence of some of the superintendents this conference was postponed until some other time. Devotional exercises opened the meeting followed by a report of the committee that were out and the election of officers which resulted as follows: President, Rev. L. E. George Fisher, D. D. of Latrobe.

McCullough and was allowed to go on \$300 bond and an oath that he would not beat his wife again, was gathered in yesterday morning after being held in a terrible beating. He was placed in the borough lockup until last evening and was taken to jail by Constables McCullough and Kells.

COMPENSATION INSURANCE

Creates a Condition Every Employer of Labor Must Face Before January 1st.

The new Pennsylvania Workmen's Compensation Law which becomes effective on January 1, 1916, creates a condition entirely new to most Pennsylvania employers. Furthermore, it is a condition which must be faced before that time every employer in the state must provide himself with some kind of Workmen's Compensation Insurance, and in this we believe we can help you.

Our experience in Pittsburgh's Liability Insurance for the past eighteen years has given us a great deal of valuable information on the subject. And we are glad now to put this information freely at your disposal.

If there are any questions you would like to ask please call on us.

It is the new ball should ring would you run and stop it or go and help to put out the fire? It is much the same way with a cough. A cough is a danger signal as much as a fire bell. You should not ignore it to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can be done by taking Chamberlain's Cough Remedy. Many have used it with the most beneficial results. It is especially valuable for the persistent cough that so often follows a bad cold or an attack of the grip. Mrs. Thomas Beeding, Andrews, Ind., writes: "During the winter my husband and I were both afflicted with coughs and colds. Chamberlain's Cough Remedy is the best medicine for breaking up these attacks and you cannot get him to take any other." Obtainable everywhere.—Adv.

WHAT CAUSES COLDS?
This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness.

Scott's Emulsion contains Nature's rare strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs or alcohol. Sold at drug stores—always get the genuine.

OLD-TIME GOLD CURE-DRINK TEAL

Get a small package of Hamburg Teal Tea, or as the German folks call it, "Hamburgers Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.—Adv.

SOISSON THEATRE.

"THE FLOOR ABOVE"—Tonight D. W. Griffith presents Henry Walthall and Dorothy Gish in the four-reel dramatic success, "The Floor Above." It is a strong detective drama and one that has many sensational scenes and exciting climaxes. It comes to The Soisson Theatre today. "The Masked Substitute" is a Laemmle two reel society drama with William C. Donnan and Gloria Fonda in the cast.

Cleo Madison is the star in "Liquid Dynamite," a Rex drama that is one wild, weird mountain drama that is hard to fathom. "A Loony Love Affair" is a Nestor comedy that is supposed to keep everybody laughing.

Tomorrow—The famous serial play, "J. Rufus Wallingford" is the attraction, and according to advance press sheets is a bang-up comedy, with many side-lights.

COLONIAL THEATRE

"THE PINK LADY." At last! the theatregoers are to see that widely talked about international musical comedy success, "The Pink Lady," which is booked for Friday evening, December 3, at the Colonial Theatre. The reasons for the mar-

velous success of this truly delightful musical comedy are not difficult to detect, for it has everything that makes for popularity and general appeal in this form of entertainment. It is full of color and life, tells a happy story, which by the way, is taken from the clever French farce, "La Satyre," and Ivan Caryll has given it a list of charming musical numbers, which besides having musical worth, are of the catchy, irresistible type that linger after one leaves the theatre.

THE NEWEST REMEDY FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headache, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Annie."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poisons get tired and backache begins. This is a good time to take "Annie," the new discovery of Dr. Pierce for kidney trouble and backache. Neglected kidney trouble is responsible for many deaths, and insurance companies examining doctors always test the water of an applicant before a policy will be issued. Have you ever sent a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of disease, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination. This is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Analytical Physicians will inform you truthfully.

Know Yourself! Read all about yourself, your system, physiology, anatomy, hygiene, home cures, etc., in the "Common Sense Medical Adviser," a book of 1008 pages. Send to Dr. J. C. Pierce, Buffalo, N. Y., three dimes or thirty cents for one-cent stamps for a cloth-bound copy.

SCOTSDALE, Dec. 1.—A fire last

started from a match dropped in a
clove. The cottage prayer meeting
at 7 P. M. was held at the Y. M. C. A.
and all went to bed after the fire. The
company was out from town.

HERE'S NEW VIGOR FOR OVERWORKED STOMACHS

A. A. Clarke, the popular druggist,
has been in the drug business long
enough to have his own opinion of
the best way of selling medicines. He
says the plan adopted by M-O-N-A,
the great dyspepsia remedy, is the best
one he has ever heard of. He doesn't
believe that a medicine ought to be
paid for unless it does the user some
good. And M-O-N-A is sold under a
positive guarantee to relieve dyspepsia
or to refund the money. You simply
leave 50 cents on deposit with A.
A. Clarke and if, after you have used
the box of M-O-N-A you decide that
it has done you no good, all you have
to do is to tell him so and he will
return your money.

Hundreds of people have been re-
lieved of stomach troubles by using
this remarkable remedy. It is not
simply a food digester; it is a medi-
cine that puts all of the digestive or-
gans into normal condition and gives
evident, glowing, vigorous health. A
change for the better will be seen
after the first few boxes of M-O-N-A,
and its continued use will soon give
the owner to eat anything at any time
and not suffer distress afterward.

M-O-N-A is sold under a positive
guarantee to refund the money if it
does not cure. This is the strongest
proof that can be offered as to the
merit of the medicine.

Nothing lessens a man's success in
his work or a woman's fascinating
personality more than a weak stom-
ach, with its attendant evils. The
M-O-N-A will see how much more
there is in life.—Adv.

Think on These Things!

This is the first popular priced Twelve.
A twelve cylinder motor is the nearest approach to perfection in
a motor car.
It means the dawn of a new era in motor car values.
It establishes a new efficiency standard in fast get-away, quick
pick-up, flexibility, speed, power and silence.
THINK of driving a car that with perfect precision and smooth-
ness takes all hills on high!
THINK of driving a car in which all gear shifting is practically
eliminated!
THINK of driving a car that just purrs along, at walking speed or
racing speed, with scarcely a perception of vibration!
Then there are cushioned cantilever springs. Nothing else like
them. Take railroad tracks so that the jolt never reaches the occu-
pants of the car. The springs absorb it all.
Take the body design—long, low, snappy and graceful. Great
yacht lines. Not a square corner. The seats are low, comfortable and
inviting.
Take the wheelbase. It is 115 inches, which is exceptionally long.
This means a very roomy tonneau—much larger than in other popular
priced cars.
THINK of all this—and then THINK of the price—only \$1,095.1
BACK OF IT ALL is one of the largest and strongest manufac-
turing concerns in the business. They are rated at \$1,000,000.00—AAA-1.
No other concern in this or any other business has a higher rating.
Cars will be ready for early delivery. See the ENGER dealer for
your territory and arrange at once for a demonstration.

ANY ONE CAN BE
RID OF ECZEMA

Who Really Wishes It's An Unques-
tioned Affliction.

The latest discovery in the world of
medicine for the treatment of eczema
and its kindred diseases of the skin—
all rashes, itches, pimples, hives, etc.
itch and ringworm—is antipruritic
Unaniol. If you suffer from eczema
and its awful itching, itching, just
go to A. A. Clarke and get 50 cents'
worth of Unaniol—use it night and
morning—and if it does not stop the
itching at once and clear up and heal
the skin, return the empty box to him
and get your money back without
further discussion.

The very fact that you can thus try
it without cost is our proof of its won-
derful healing powers—the other
proof is what Unaniol actually ac-
complishes when you apply it at the
skin. Now you can understand why
Unaniol is in such great demand at
drug stores everywhere by those who
suffer from eczema and kindred skin
troubles. The baby that cries at
night and all day long crying when
Unaniol is applied to its chafing, burn-
ing skin, and hives without number
today realize its great value for baby's
skin troubles, as well as for the skin
afflictions of grown-ups. The small
price of Unaniol—the liberal quantity,
and the money-back guarantee under
which you buy it, makes everyone
satisfied.—Adv.
